

### EVALUATION ON STUDENT PROGRESS

Provide a self-evaluation of your performance, using the measures previously identified, in applying and acquiring new knowledge, skills, and competencies identified in the Training Plan for STEM OPT Students. Discuss accomplishments, successful projects, overall contributions, etc., during this review period. Address whether there are any modifications to the objectives and goals for projects, or new areas for skill and competency development.

Range of Evaluation Dates: (mm-dd-yyyy): From 08/31/2018 To 08/01/2019

As a System Administrator, I have successfully provided infrastructure for applications using cloud environment and automated build deployments using continuous integration and continuous deployment tools. Developed Pipelines for provision of blue green and automated end to end deployments in various environments. I have provided the application monitoring by configuring monitoring tools and configured the monitoring tool dashboards for alerting mechanism. By working in complete agile environment and cross training environments I have gained knowledge on application development and test driven development. The knowledge helped me in developing the application dashboards using Node.js. I have developed micro services and containerized them using containerization tools for faster processing and reliable infrastructure for applications. My overall responsibilities for providing infrastructure and hosting applications have enhanced my skills in IT field.
